132. EMERGENCY HOSPITAL RECEIPTS (See pars. 28,30,47,53,82,110).

T.H.Heard -

In reply to your letters of May 21st and July 14th in reference to the Emergency Hospital and Antitoxin Accounts, I beg to advise you that the account for Antitoxin used by the Hospital and sold to Physicians from January 1st to June 30th has since been paid over to the City Treasurer.

The revised memo of receipts from Emergency Hospital patients shows further payments on these accounts amounting altogether to $832.75 up to June 30th.

I might say that the usual method of collecting these accounts is proceeding as rapidly as these people are prepared to pay. As many of the patients admitted to the Emergency Hospital were very poor or of moderate means, they were not able to pay at the time and payments are necessarily slow in coming in, but we are making every effort to have them paid.

Thus far, the amount received has not been sufficient to cover the cost of previsions and medicines supplied by the Board of Trustees. When the balance of these accounts has been collected, all over and above will be handed over tothe Board of Health.

The Board of Trustees, when arranging with the Board of Health to provide heat, light, gas and water free of charge, did not undertake to provision the Emergency Hospital free of charge, and for this reason, feel that they should be reimbursed for this expense.

Enclosed please find statement of expenditure and receipts to June 30th, 1920. I would suggest that the Chairman of the Hospital Board be invited to your next Board meeting to discuss the matter and make what adjustment may be deemed requisite.

Upon motion the Chairman of the Hospital Board is asked to attend the next regular meeting of the Board.

134. HOG KEEPING (See par 109).

H.M.Stephen -

Received your letter regarding the pigs but so far have been unable to dispose of them.

Have been at the market several times and have seen several people but could not sell them.

I am still doing my best to get rid of them, and will dispose of them as soon as I possibly can, as I do not wish to keep them against the will of the Board of Health.

I hope this will be satisfactory.

Mr. E.H.Russell moves, and it is adopted, that the action of Dr. Downham be sustained.

Upon motion the Board adjourned.

.....
Chairman.

THIRTEENTH MEETING.

THE BOARD OF HEALTH meets in the Committee Room, City Hall, on Tuesday, September 14th, 1920, at 4 p.m.
PRESENT: Messrs. J.H.Saunders (Chairman) E.H.Russell, Dr. Downham and Mrs. Partridge.

137 MINUTES.

The minutes of the twelfth meeting are confirmed and signed by the Chairman.

138 PUBLIC HEALTH NURSE COURSE.

Dr. Hill appeared before the Board and submitted a communication from the Executive Committee of the Western University to the Board of Health with regard to the Public Health Nurse Course to be inaugurated by the Western University, namely: —

"In providing a course for public health nurses the University, through the Insiitute of Public Health has supplied the lecture and laboratory work required by the standards now set for this work in Canada, but for the practical study of the actual work of the public health nurse it is, of course, essential to have access for these nurses taking the course to such actual public health work as is in operation in London and elsewhere. We are, therefore, making a request to these official bodies and corporations in London who now employ public health nurses for leave to outline their public healt activities for the necessary demonstrations which will take two forms:

First - The nurse taking the course should observe the nurse in her work and, under the supervision of the nurse, study the work.

Second - After becoming familiar with the work the nurse taking the course would be at the disposal of the public health nurse and conduct the work herself under the supervision of the nurse, thus reversing the situation and securing both sides of the training a first as an observer, and second as the conductor of the work.

Our request is that your Board will favorably consider giving permission to the public health nurses under your control:

(1) To permit the observation and study of their work above outlined in all its particulars.

(2) To take over and direct the service of the nurses in training for such time as may be agreed. This will involve no expense to the Board and no loss of time to the nurse.

A similar request is being made to the Board of Education, the Child Welfare Association, London Health Association, Victoria Hospital Clinics and Dispensaries, and Industrial corporations.

If your permission is given, details and necessary arrangements will be workedout afterwards."

Dr. Downham, seconded by Mr. Russell, moves, and it is adopted that the request of the Faculty of Public Health of the Western University be granted.

139 PLUMBING BY-LAW. (see par. 103, 107)

S.Baker stating that he had been notified by Dr. McCullough that the Board would be advised as to when the plumbing regulations will come up for consideration by the Provincial Board.

140 CITY DIRECTORY.

Mr. Russell moves, and it is adopted, that one city directory be purchased for the Health Office.

141 BATHURST STREET SEWER.

W.Leff & Company stating that they have secured a signed petition for a sanitary sewer along Bathurst Street, from William to Adelaide Street, with the signatures of four owners, out of a total of six owners.

On this block, they have a large plant which has just lately been completed and they expect to employ about fifteen to thirty girls and women in their various departments and are installing several lavatories, but not having the sanitary sewer cannot let their sewage out unless same is put down immediately.

S.Baker stating that he had received a sufficiently signed petition for this sewer and that the by-law would be passed at the next meeting of the Council.

Upon motion the Board recommends the construction of this sewer.

152 COVE HOSPITAL.

S Baker stating that Mr. Tustin, the Inspector of the Humane Society, and the Humane Society, desire to get permission to build a house on the sewer farm property near the Cove Hospital. The request is made that No. 2 Committee and the Council consent to the erection of a house and that his services be accepted in lieu of rental. The spot is an ideal one for his work and as the house would be on the property of the city it would be of advantage to the city and the Society.

Dr. Downham stated that Mr. Tustin had to move and wanted permission to live in the Cove Hospital until such time as his house would be built.

Dr. Downham moves, and it is adopted, that Mr. Tustin be permitted to live in the Cove Hospital on the understanding that should smallpox break out he would vacate the house immediately or be quarantined in the hospital and take care of the patients and the Board would allow him payment for doing so.
